# MD.MAZADUL ISLAM

## Jr. Penetration Tester

## ABOUT ME

Jr. Penetration Tester Intern at Byte Capsule IT with hands-on experience in web application security testing and penetration testing labs. Proficient in Linux-based environments, reconnaissance, enumeration, vulnerability assessment, and professional security reporting through structured ethical hacking training. Strongly focused on building a long-term career in penetration testing and continuously improving offensive security skills.

## PROFESSIONAL EXPERIENCE

Jr. Penetration Tester (Intern)      Jan 2026 – Present

### Byte Capsule IT

Collaborating with the security team to perform internal and external penetration tests on client infrastructures.

- Assisting in identifying, validating, and documenting security weaknesses across web applications and network services.
- Participating in the full security assessment lifecycle, from initial reconnaissance to final remediation support.

Cybersecurity Analyst (Trainee)      April 2025 -Dec 2025

### Byte Capsule IT

- Completed structured training in ethical hacking and penetration testing methodologies.
- Performed hands-on security testing labs covering web application and Active Directory penetration testing.
- Gained practical experience in reconnaissance, enumeration, exploitation techniques, and professional security reporting.
